UTILIZING EMPATHY

Free Parent Session!

I can show you, through the use of a simple, empathetic statement, how to actually change the brain function of a child so that the child will be able to place blame for their negative behaviors on themselves instead of on their mean, unfair parents.

Scott Ervin, The Kid Whisperer, has over 17 years of experience working with a diverse array of children on a daily basis as a teacher, principal, superintendent, discipline specialist, behavioral consultant, and father. He brings a wealth of knowledge and understanding to his work. Scott specializes in succeeding with troubled and at-risk students.
