- The assignment of homework can be expected.
- Homework is assigned regularly, is reasonable, meaningful, and reflects the objectives of the instructional program.
- Homework is a part of the student's preparation for the achievement tests and graduation.
- All homework assignments are expected to be completed at home.
- Students must maintain a homework notebook listing assignments, due dates, and dates turned in.
- Parents should provide a space and quiet time for their student to complete the homework each night.
- Grades will not necessarily be given for each assignment, but completion or non-completion will be recorded.

Teacher Qualifications
(Brd. Pol. #2261.02)

Are all teachers qualified to teach the courses/grade levels assigned to them?

- All teachers hold valid teaching licenses issued by the Ohio Department of Education (ODE).
- All teachers have earned a bachelor's degree as a minimum; many have earned advanced degrees.

Contact Mrs. Mary Martin, Director of Human Resources at (937) 854-3050 Ext 1123 for further information.

Retention/Promotion/Acceleration Policy
(Brd. Pol. #5409, 5410)

Final decisions on student promotion, placement, or retention rest with the building principal. Promotion and retention for Grade 3 shall be in compliance with the terms of Ohio's Third Grade Reading Guarantee.

Promotion

What is promotion?

- Promotion is the movement of student(s) forward in a continuous pattern of achievement and growth that is in harmony with his/her own development.
- The pattern coincides with the system of grade levels established by the Board and the instructional objectives established for each.

What are the requirements for my student to be promoted to the next grade?

- Complete the course and State-mandated requirements at the currently assigned grade.
- Achieve the instructional objectives set for the present grade.
- Demonstrate sufficient proficiency to permit movement ahead in the educational program of the next grade.
- Demonstrate the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade.

Retention

What is retention?

- Retention occurs when a student is not doing the caliber of work that indicates the student should be promoted to the next grade.
- Retention is based on the recommendation of the Student Intervention Team with the concurrence of the building administrator.

What are the guidelines for retaining a student?

- Parents must be informed in advance of the possibility of the student's retention at a grade level.
- The Principal must assure that efforts are made to remediate the student's difficulties before he/she is retained.
- The District requires that a student be retained if he/she is truant for ten percent (10%) or more of the required school days and has failed at least two (2) courses of study, unless the Principal and the teachers of the failed subjects determine that the student is academically prepared to be promoted.
- The Principal must provide parents the opportunity to request the promotion, placement, or retention of their child.
- The District must provide parents the opportunity to request an appeal. Contact the Principal for further information.

Academic Acceleration:

What is academic acceleration?

- Academic acceleration occurs when a student is not only doing the caliber of work necessary to be promoted to the next grade or enrolled in the next course in the academic sequence, but also demonstrates the ability to do the caliber of work required of students in that next grade level/subject/course.
- Academic acceleration may involve whole-grade acceleration or individual subject acceleration.

What are the guidelines for academic acceleration?

- The Principal, a staff member, or the parent/guardian who has knowledge of the student's abilities may refer the student.
- Students may refer themselves or a peer through a staff member who has knowledge of the referred student's abilities.
- An Acceleration Evaluation Committee will determine whether the student will be permitted to skip a grade level, take a subject at a higher grade level, or skip a course in the usual and customary academic sequence.
- The Principal will schedule the evaluation of the student so that it occurs in a prompt manner. The process is one approved by the Ohio Department of Education (ODE).
- Before a student is evaluated, the Principal will obtain written permission from the student's parent/guardian.
- Evaluations will ordinarily be completed and a written report issued within forty-five (45) calendar days, if requested during the school year. If the request is at the end of the school year, the completion will be within forty-five (45) calendar days of the start of the next school year.
- The Acceleration Evaluation Committee will determine the appropriate learning environment for the referred student.
- Appeals must be made in writing to the Superintendent within thirty (30) calendar days of the parent/guardian receiving the Committee's decision.
- The Superintendent will notify the parent/guardian of his/her decision within thirty (30) calendar days of receiving the appeal.
- The Superintendent or his/her designee's decision shall be final.
- If the student is recommended for whole-grade or individual subject acceleration, a plan will be written.
- The parent/guardian shall be provided with a copy of the plan.
- At any time during the transition period, the parent/guardian may request in writing that the student be withdrawn from accelerated placement or that other accelerative options be considered.
- A decision will be provided within a 30 day period.
- At the end of the transition period, the accelerated placement shall become permanent.
- The student's record shall be modified accordingly, and the acceleration implementation plan shall become part of the student's permanent record.

SECTION III-

STUDENT

ACTIVITIES

School-Sponsored Clubs and Activities

(Brd. Pol. #2430)

What are the requirements for participation in school sponsored clubs/activities?

- Extra-curricular activities do not reflect the District curriculum.
- All students are permitted to participate in the activities of their choosing as long as they meet the eligibility requirements.
- Participation in these activities is a privilege and not a right.
- Students may be prohibited from all or part of their participation by authorized school personnel without further notice, hearing, and/or appeal rights in accordance with Board Policy.

What are the requirements for all non-graded extra-curricular activities?

- All student activities must be approved by the Principal.
- Students must meet all OHSAA designated scholastic requirements.
- Students may not have more than one F letter grade in the previous nine weeks.
- Students must have a minimum grade point average of 1.83 in the previous nine weeks grading period to compete as a non-probationary participant.
- Students with a grade point average below the minimum requirement of 1.83 will automatically be declared probationary participants.
- All probationary participants will be eligible to compete in all in-season contests provided they enter and fulfill an Intervention Plan contract with the athletic office.
- The intervention plan contract will mandate that all probationary participants attend the intervention center a minimum of two hours per week to improve their academic performance.
- Students will not be eligible for probationary status as a student-athlete for more than one quarter in an academic year.
- *Students must be in full attendance at school on the day of extracurricular activities in order to be eligible to participate in any of them.*

SECTION IV-

ATTENDANCE

Attendance
(Brd. Pol. #5200)

What are the attendance requirements?

- Ohio Revised Code (ORC) indicates that it is the responsibility of the parents to assure the regular daily school attendance of their student(s) unless absence is the result of one of the following:
 - Personal illness (a written physician's statement verifying the illness may be required).
 - Illness in the family necessitating the presence of the student.
 - Necessary work at home due to absence or incapacity of parent(s)/guardian(s).
 - Death in the family.
 - Quarantine of the family home.
 - Observation or celebration of a bona fide religious holiday.
 - Out-of-state travel (up to a maximum of four (4) days per school year) to participate in a District approved enrichment or extracurricular activity. Any classroom assignments missed due to this absence must be completed by the student.
 - Such good cause as may be acceptable to the Superintendent.
- Unexcused absence from school (truancy) is not acceptable.
- **A parent note does not automatically excuse an absence or tardy from a truancy referral.**

What happens when absences become excessive?

A student will be considered habitually truant if:

- The student is absent without a legitimate excuse for 72 or more hours in a school year.
- A student will be considered chronically truant if the student is absent without a legitimate excuse for:
 - 30 or more consecutive hours
 - 42 or more hours in one (1) school month
 - 72 or more hours in one (1) school year
- If a student is deemed a habitual truant, this will require the student to be assigned to an absence intervention team at the direction of the Superintendent or designee. As required by law, the student and parent/guardian will be required to participate in the intervention plan.
- Ohio Law requires a complaint to be filed with the Montgomery County Juvenile Courts if the student fails to make satisfactory progress during the intervention plan.

What should I do if my student has a legitimate absence?

- Call the school before 8:00 AM to report the child's absence.
- When a student returns to school after absence, he/she must bring a note from his/her parent or guardian stating the reason for each absence. The note must include a **working number** to contact the parent.

- Only three (3) absences will excused per quarter; unless under a physician's care for an extended period of time (see next bullet).
- In the event of prolonged absence (1+weeks), contact your Principal/Unit Principal's secretary for work assignments and provide a doctor's statement upon return.
- If a student is absent from school for any reason, he/she is not eligible for a perfect attendance award.
- A student will be considered absent ½ day if they arrive after first lunch begins.
- Accordingly, a student must be present during the full day to be eligible to attend extracurricular school functions scheduled for that day.

Tardiness
(Brd. Pol. #5230)

What happens if my student is late to school?

- Being on time for school is very important.
- Students are expected to be in their classrooms prior to the starting time. Students will be considered tardy if they arrive after that time.
- **Excused tardy** is one where the student has a specific doctor or dental note for that date and time or something from the court indicating that the student must be present for that specific date and time.
- **Unexcused tardy** is one that does not fall in the excused area.
- Violations for unexcused tardy will follow the discipline code and will be progressive. Whenever a student's tardiness becomes excessive or the reasons for a student's tardiness become suspect, the school attendance officer will be assigned to initiate an investigation and he/she may call Children's Services (CSB).
- Tardy minutes will be counted towards overall absence hours for court purposes in increments of thirty (30) minutes (i.e. 16-30 minutes tardy = 30 minutes towards accumulated hours).
- No student will be permitted to return to a classroom to pick up forgotten items after their dismissal time unless the student is accompanied by school staff personnel.

Dismissal
(Brd. Pol. #5230)

What is the procedure if I need to pick my student up from school early?

- No student may leave school prior to dismissal time without a parent or guardian either submitting a signed written request or coming to the School office personally to request the release.
- No student will be released to a person other than a custodial parent/guardian without written authorization signed by the custodial parent/guardian.
- A driver's license or other picture identification will be required.

What will happen if I do not pick my student up at dismissal time?

- Our utmost concern is for the safety of our students.
- If a student is dropped off at school prior to the first bell, not picked up after any school event (*within ½ hour*), or the parent is not present at the bus stop when the bus arrives, any one of the following may occur:
 - A charge of \$25.00 per hour or any part of the hour will be imposed;
 - Children’s Services Board and/or Trotwood Police will be contacted;
 - The child will be transported to the Trotwood Police Department.
- Any change in routine dismissal procedure requires written permission from the student’s parent or guardian. (This includes students walking, riding a city bus, or a school bus.)
- Changes will be allowed for emergencies only and must be approved by the Building Principal.
- THERE WILL BE NO EXCEPTIONS TO THIS POLICY!

Vacations

What should I do if my vacation occurs during the school year?

- It is recommended that parents not take their students out of school for vacations.
- Removal could be subject to truancy regulations.
- Students going on trips or vacations should bring a note from their parent/guardian one week before the absence. These absences will be noted, but not excused.
- Make-up work must be arranged prior to the absence and must be turned in the first day the student returns to school.

SECTION V-

STUDENT

CONDUCT

This policy applies to all conduct which occurs at schools, buildings, grounds and vehicles owned or controlled by the Board and at all interscholastic competitions, extra-curricular events, going to and from school, and all other programs and activities sponsored by Trotwood-Madison City Schools or in which Trotwood-Madison is a participant. This policy also applies to conduct regardless of where it occurs if the conduct is directed toward a School District official or School employee.

The chief goal in discipline is to develop self-discipline in each student so that the student might control his/her own conduct both in and out of school and later as an adult. Ultimately, it is the Principal's responsibility to maintain order. The School is committed to providing prompt, reasonable discipline consistent with the severity of the incident. The consequences for misbehavior are designed to be fair, firm, and consistent for all students in the School. Because it is not possible to list every misbehavior that occurs, those not listed in this section, will be responded to as necessary by staff.

STUDENT CODE OF CONDUCT
(Brd. Pol. #5500, 5600, 5772, 8400)

Student Code of Conduct

1. Dress codes are in place for the health and safety of each student. The elementary, middle, and high school dress codes vary and are found in each handbook. Body piercing that may endanger the health and/or safety of the student is not permitted.

Violation - Category I-2 (based on severity of occurrences)

2. Games and toys are not allowed in school and will result in confiscation. The school will assume no financial responsibility for these items once they are confiscated.

Violation - Category 1

3. Students are expected to comply with reasonable directions or commands given by School personnel and may not willfully refuse or fail to follow or comply with an appropriate direction given.

Violation - Category 1-3 (based on severity)

4. All students are to abide by the rules of conduct established for the use of bus transportation. These rules apply to regularly scheduled bus runs, extra-curricular activities and field trips, including athletic transportation.

Violation - Category 1-4 (based on the offense)
(Administrators may suspend bus riding privileges)

5. A student who is not in his/her classroom when school starts is considered tardy to school. Likewise, any student who is not in his/her classroom by the time the bell rings is considered tardy to class.

6. A student shall not be involved in any type of disruption or interference within the classroom, hallways, buses, grounds, or extracurricular activities (i.e.; gambling, name calling, spitting, selling candy, etc.). Students are expected to resist peer pressure and exercise sound decision-making regarding their behavior. They may not assist other students in the violation of any school rule.

Violation – Category 1-4 (based on the offense)

7. Students will not violate the District's computer use policy (see *Addendum 2*).

Violation – Category 1-4 (based on severity)

10. A student shall not place, wear, keep or maintain any article which is of a nature that shall cause or tend to cause disruptive activity or a safety hazard on any School property or at any School-sponsored function. Any actions or manner of dress that materially and substantially disrupts or interferes with school activities or the educational process, or threatens to do so, are unacceptable. Such disruptions include, but are not limited to, delay or prevention of lessons, assemblies, field trips, athletic and performing arts events. The act of body piercing that may endanger the health and/or safety of the student is not permitted.

Violation – Category 1-2 (based on situation and severity)

11. Because the Board believes that students, staff members, and visitors are entitled to function in a safe school environment, students are required to report knowledge of dangerous weapons or threats of violence to the Principal. Failure to report such knowledge will subject the student to discipline.

Violation – Category 2-4 (based on severity)

12. No student shall commit any act or coerce another student to do any form of initiation into an organization that poses a substantial risk of causing mental or physical harm. Students will not ask another student for money or items of value under the threat of verbal or physical harassment. This will be considered extortion and is against the law.

Violation – Category 2-4 (based on severity)

13. A student shall not engage in inappropriate physical contact including excessive horseplay (after investigation, not considered a fight).

Violation – Category 1-3 (based on severity)

14. 16. Students are not permitted to leave the classroom/building without authorization from School personnel.

Violation – Category 1-3 (based on the situation)

17. Wireless communication devices (WCD’s) may be used per building policy, as an instructional tool. Usage other than that outlined in the building policy could subject students to disciplinary consequences. The School will assume no financial responsibility for these items if it becomes necessary to confiscate them (See Addendum 3).

Violation—Category 1-4 (based on the situation)

18. Dishonesty in the form of forgery, plagiarism, cheating on standardized tests, or turning in another student’s work (e.g.; test, quiz, or paper) as their own will not be tolerated. Students are prohibited from falsifying signatures or data, refusing to give proper identification, or giving false information to a staff member. This prohibition includes, but is not limited to, forgery of hall/bus passes and excuses, as well as use of false I.D.’s.

Violation – Category 1-4 (based on severity)

19. A student shall not contribute to a conflict or unacceptable behavior (e.g.; instigating a fight, passing a derogatory note, etc.). A student who is in compliance with another student committing an offense listed in the code of conduct will be subject to discipline. Violation-Category 2-4 (based on severity)

Violation – Category 2-4 (based on situation)

22. Students shall not act with intent to cause fear in another person of immediate bodily harm or death, or intentionally bullying, harassing, inflicting or attempting to inflict bodily harm upon another person (see Addendum 1). Any oral or written statement or otherwise expressed action that a staff member, student, or other person associated with the District reasonably feels to be a threat will be considered a verbal assault. Profanity, abusive or foul language, or gestures directed toward a staff member or another student in a threatening tone may also be considered a verbal assault. Confrontation with a student or staff member that bullies, intimidates, or causes fear of bodily harm or death is also prohibited. Harassment and/or aggressive behavior (including bullying/cyberbullying) toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse, and any speech or action that creates a hostile, intimidating, or offensive learning environment. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. Individuals engaging in such conduct will be subject to disciplinary action.

Violation – Category 2-4 (based on severity)

Violation-Category 2-4 (based on incident)

25. Students will not be involved in fighting of any type for any reason. It is considered a fight when two people are exchanging blows or exerting physical abuse and punishment (differentiated from poking, pushing, shoving, or scuffling), regardless of who hit first. (Retaliation is not permitted. If a child has an issue with another student they are to tell an adult immediately so that the issue may be resolved. Failure to do so may result in disciplinary action being taken.)

Violation – Category 2-4 (based on situation and severity)

26. When one person is the total aggressor and the other person does not hit back, this will be considered an assault and will be treated accordingly. Physical assault of a staff member, student, or other person associated with the District, regardless of whether it causes injury, will not be tolerated. Any intentional, harmful, or potentially harmful physical contact initiated by a student against a staff member will be considered to be an assault. Assault may result in criminal charges and the Trotwood Police may be contacted.

Violation – Category 2-4 (based on situation and severity)

27. Students of any age or grade will not possess, handle, transmit or conceal an object commonly classified as a weapon or a dangerous object (e.g.; bullet, shell casing, gun (of any type), knife (of any type), razor cutting instrument, ice pick, fireworks, etc.).

A weapon is any device that may be used for offensive or defensive purposes, including but not limited to conventional objects such as guns, pellet guns, knives, or club type implements. Any object that is used to threaten, harm, or harass another may be considered a weapon. This includes but is not limited to padlocks, pens, pencils, rat tail combs, laser pointers, and jewelry. It may also include any toy that is presented as a real weapon or reacted to as a real weapon.

A knife is defined as any cutting instrument consisting of a sharp blade fastened to a handle, razor blade or any similar device that is used for, or is readily capable of causing death or serious bodily injury.

Bringing a firearm (as defined in Federal Gun-Free Schools Act of 1994) onto school property or to any school-sponsored activity, competition, program, or event, regardless of where it occurs, will result in a mandatory one (1) year expulsion under Ohio law. This expulsion may be reduced on a case-by-case basis by the Superintendent using the guidelines set forth in Board Policy.

Violation – 10 day suspension with a recommendation for expulsion

(Possession and/or use of a weapon may subject a student to possible permanent exclusion in addition to expulsion.)

28. No student shall possess, use, transmit or conceal, or be under the influence of any alcoholic beverage, controlled substance including, but not limited to narcotics, mood altering drugs, counterfeit controlled substances, look-alikes, over the counter stimulants or depressants, hallucinogenic drugs, marijuana, inhalants, anabolic steroids, or any prohibited or illegal substance, or drug related paraphernalia. (If a building principal has a reasonable individualized suspicion of drug or alcohol use, he/she may request the student in question to submit to any appropriate testing, including but not limited to, a breathalyzer test or urinalysis. In such circumstances the student will be taken to a private administrative or instructional area on school property for such testing with at least one other member of the teaching or administrative staff present as a witness to the test. If a student refuses to take the test, he/she will be advised that such denial leaves the observed evidence of alcohol or drug use unrefuted, thus leading to possible disciplinary action. The student then will be given a second opportunity to take the test.)

Violation – 10 day suspension with a recommendation for expulsion

29. Students making a bomb threat (i.e., intentionally giving a false alarm of a bomb) against a school building or any premises at which a school activity is being held at the time the threat is made, may result in expulsion for a period of up to one (1) school year. Additionally, intentionally giving a false alarm of a fire, or tampering or interfering with any fire alarm is prohibited.

Violation – 10 day suspension with a recommendation for expulsion

30. No student shall intimidate or be a party to the intimidation of another student for the purpose of sexual interest, engage in any form of exhibitionism, or engage in any act of sexual misconduct during School or school-sponsored activities, on School grounds, the bus or in transit to or from school. No student shall possess or distribute sexually explicit materials of any kind.

Violation – Category 2-4 (based on situation and severity)

31. A student shall not exhibit behavior that can be interpreted as gang related. This includes clothing, gestures, graffiti, or language. Students wearing, carrying or displaying gang paraphernalia or exhibiting behaviors or gestures that symbolize gang membership or causing and/or participating in activities that are designed to intimidate another student will be disciplined.

Violation – Category 2-4 (based on situation and severity)

Regulations described in items 1 through 31 apply to any student during the regular school day (including field trips) or during school-sponsored after-school functions. Disciplinary measures taken against students for violation of this policy will comply with the requirements of Ohio Law (ORC) and related School District policies (Brd. Pol.). This authority to regulate student conduct may also extend beyond the boundaries of School property if the conduct in question has a sufficiently direct impact on School operation.

Students involved in co-curricular and extra-curricular activities such as band and athletics can lose their eligibility for violation of the School rules. This is especially true for infractions involving drugs, alcohol, tobacco use, or harassment.

CATEGORY 1 OFFENSES MAY RESULT IN CONSEQUENCES RANGING FROM LOSS OF PRIVILEGES UP TO AND INCLUDING DETENTION.

CATEGORY 2-4 OFFENSES MAY RESULT IN CONSEQUENCES RANGING FROM DETENTION UP TO AND INCLUDING A 10 DAY SUSPENSION WITH A RECOMMENDATION FOR EXPULSION.

Discipline of Students with Disabilities

Students with disabilities will be entitled to the rights and procedures afforded by the Individuals with Disabilities Education Improvement Act (I.D.E.I.A.), the Americans with Disabilities Act (A.D.A.), and/or Section 504 of the Rehabilitation Act of 1973.

Removal from School
(Brd. Pol. #5605, 5610, 5611)

Formal discipline involves removal of the student from school. It includes emergency removal for one (1) school day, suspension for up to ten (10) school days, expulsion for up to one hundred eighty (180) school days or the number of days remaining in a semester (whichever is greater), and permanent exclusion. Any student who is expelled from school for more than twenty (20) days or if the expulsion will extend into the following semester or school year, will be provided with information about services or programs offered by public and private agencies that work toward improving those aspects of the student's attitude and behavior that contributed to the incident that gave rise to the student's expulsion. Suspensions and expulsions may carry over into the next school year at the discretion of the Superintendent.

Emergency Removal Procedures:

- Emergency removal is exercised if a student's presence poses a continuing danger or a threat of disruption.
- The Superintendent, Principal, or Assistant Principal may emergency remove the student from class, extra-curricular activity or the school premises. **The parent/guardian must pick up the student from school immediately.**
- An emergency removal for one (1) day does not require a hearing.
- If the emergency removal exceeds one (1) day, suspension procedures will be followed.

Suspension Procedures

- The student will be given a written letter or intent to suspend during a conference with the School Principal indicating the basis for the proposed suspension.
- The student will be given an opportunity to explain his/her view of the underlying facts.
- After the information hearing, the School Principal will determine whether or not to suspend the student.
- If the decision is made to suspend the student, parents will be notified within one (1) day of the suspension.
- This notice will include the reasons for suspension, the right to a hearing, and the Board's designee for the appeal.
- **Only those days that school is in session are applied toward the suspension.**
- Students who are suspended are not permitted to participate in any extra-curricular activities during the dates of the suspension.
- If the suspension is appealed to the Board's designee, the appeal shall be conducted in a private hearing. A verbatim transcript will be made.
- If the decision, after the appeal, is to uphold the suspension, the next step in the appeal process is the Court of Common Pleas.

- During the appeal process, the student shall not be allowed to remain in School.

Expulsion Procedures

- An expulsion is a removal for more than ten (10) consecutive days.
- The parent will receive a formal letter of notification of the expulsion.
- This notice will include:
 - the reasons for the intended expulsion;
 - notification of the opportunity to appear in person before the Superintendent or Hearing Officer to challenge the reasons for the expulsion and/or explain the student's action; and
 - notification of the time and place to appear.
- A formal hearing will be scheduled no earlier than three (3) and no later than five (5) school days after the sending of the notice.
- The student may be represented by his/her parents, legal counsel, and/or person of his/her choice at the hearing.
- Parents may request an extension of time for the formal hearing. During this time the student will not be allowed to return to School.
- Following the hearing, the Hearing Officer will make a recommendation to the Superintendent; only the Superintendent may expel a student from school.
- If a student is expelled, the student's parents will be provided with written notice within two (2) school days of the imposed expulsion.
- This notice will include:
 - the reasons for the expulsion;
 - the right of the student, the student's parent(s)/guardian(s), or custodian(s) to appeal the expulsion to the Board or its designee;
 - the right to be represented in all appeal proceedings;
 - the right to be granted a hearing before the Board or its designee; and
 - the right to request that the hearing be held in executive session.
- No later than fourteen (14) days after the Superintendent notifies the parents of the expulsion, the expulsion may be appealed, in writing to the Board of Education.
- A hearing on the requested appeal will be formal, with an opportunity for sworn testimony and to be held in executive session, unless parent(s)/guardian(s) request otherwise.
- During the appeal process, the student shall not be allowed to return to School.
- If the expulsion is upheld on appeal, a student's parents may pursue further appeal to the Court of Common Pleas.
- **Only those days that school is in session are applied toward expulsion.**
- Expulsion for certain violations including use or possession of alcohol or drugs, may result in revocation of a student's driver's license.
- Expulsion proceedings will continue even if the student withdraws from school prior to the hearing or the decision to impose the expulsion.
- The expulsion will be imposed for the same duration that it would have been had the student remained enrolled.

Permanent Exclusion Procedures

- **Permanent exclusion removes a student from schools in the State of Ohio on a permanent basis.**
- **This process is formal and may follow an expulsion with proper notification to the parents.**
- **The offenses for which permanent exclusion are authorized are:**
 - **conveying deadly weapons onto School property or to a School function;**
 - **possessing deadly weapons onto School property or at a School function;**
 - **carrying a concealed weapon onto School property or at a School function;**

 - **voluntary or involuntary manslaughter on School grounds or at a School function;**
 - **assault or aggravated assault on School property or at a School function;**
 - **rape, gross sexual imposition or felonious sexual penetration on School grounds, or at a School function, when the victim is a School employee; or**
 - **complicity in any of the above offenses, regardless of the location.**

ADDENDUM 1

**BULLYING AND OTHER
AGGRESSIVE BEHAVIOR**

BULLYING AND OTHER AGGRESSIVE BEHAVIOR

(Brd. Pol #5517)

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse, and violence within a dating relationship. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, on a school bus, or while in route to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means:

- A. any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s); or
- B. violence within a dating relationship.

“Electronic act” means an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyberbullying, intimidating, menacing, coercion, name calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means cyberbullying through electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the building principal or assistant principal. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The building principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying/cyberbullying by an electronic act or otherwise, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include suspension or up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Retaliation may result in disciplinary action as indicated above.

Deliberately making false reports about harassment, intimidation, bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly

prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5515.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the building principal or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the building principal or appropriate administrator shall notify in writing the custodial parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the building principal for review, investigation, and action.

Students, parents/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher or school administrator. Such complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the

school staff member and/or administrator to the building principal for review, investigation, and appropriate action.

Individuals who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Reporting Requirement

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not

apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be annually circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. At least once each school year a written statement describing the policy and consequences for violations of the policy shall be sent to each student's custodial parent or guardian. The statement may be sent with regular student report cards or may be delivered electronically.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students in the District and to their custodial parents or guardians.

State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedures.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying and violence within a dating relationship. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines and aggressive behavior and bullying in general, will be age and content appropriate.

Annually, the District shall provide all students enrolled in the District with age-appropriate instruction regarding the Board's policy, including a written or verbal discussion of the consequences for violations of the policy to the extent that State or Federal funds are appropriated for this purpose.

Students in grades seven (7) through twelve (12) shall receive age-appropriate instruction in dating violence prevention education, including instruction in recognizing dating violence warning signs and characteristics of healthy relationships. Parents, who submit a written request to the building principal to examine the dating violence prevention instruction materials used in the school, will be afforded an opportunity to review the materials within a reasonable period of time.

The District shall provide training, workshops, and/or courses on this policy for school employees and volunteers who have direct contact with students to the extent that State or Federal funds are appropriated for these purposes. Time spent

by school staff in these training programs shall apply toward mandated continuing education requirements.

In accordance with Board 8462, the Superintendent shall include a review of this policy on bullying and other forms of harassment in the required training in the prevention of child abuse, violence, and substance abuse and the promotion of positive youth development.

The Superintendent shall develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

COMPUTER USE

Computer Use by Students
(Brd. Pol. #7540 and 7540.03)

Student Network and Internet Acceptable Use and Safety

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The Board of Education is pleased to provide Internet services to its students. The District's Internet system has a limited educational purpose. The District's Internet system has not been established as a public access service or a public forum. The Board has the right to place restrictions on its use to assure that use of the District's Internet system is in accord with its limited educational purpose. Student use of the District's computers, network and Internet services ("Network") will be governed by this policy and the related administrative guidelines, and the Student Code of Conduct. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have no right or expectation to privacy when using the Network (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the Network).

The Board encourages students to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet will be guided by the Board's policy on instructional materials.

The Internet is a global information and communication network that provides an incredible opportunity to bring previously unimaginable education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges and responsibilities.

First, and foremost, the Board may not be able to technologically limit access, through the Board's Internet connection, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any

publicly available file server in the world, will open classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, which protect against (e.g. filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act. Any student who attempts to disable the technology protection measures will be subject to discipline.

The Superintendent or Technology Coordinator may temporarily or permanently unblock access to sites containing appropriate material, if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures.

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents assume risks by consenting to allow their child to participate in the use of the Internet. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The Board supports and respects each family's right to decide whether to apply for independent student access to the Internet.

Pursuant to Federal law, students shall receive education about the following:

- A. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications
- B. the dangers inherent with the online disclosure of personally identifiable information
- C. the consequences of unauthorized access (e.g., "hacking") cyberbullying and other unlawful or inappropriate activities by students online, and

D. unauthorized disclosure, use, and dissemination of personal information regarding minors

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school. Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

The Superintendent shall prepare guidelines that address students' safety and security while using e-mail, chat rooms, instant messaging and other forms of direct electronic communications, and prohibit disclosure of personal identification information of minors and unauthorized access (e.g., "hacking") and other unlawful activities by minors online.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. All Internet users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students and staff members are responsible for good behavior on the Board's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Students shall not access social media for personal use from the District's network, but shall be permitted to access social media for educational use in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users granted access to the Internet through the Board's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying guidelines.

The Board designates the Superintendent and Technology Coordinator as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of the Network.

PERSONAL COMMUNICATION DEVICES (PCDs)

Personal Communication Devices (PCDs)
(Brd. Pol. #5136)

Students may use personal communication devices (PCDs) before and after school, during after school activities (e.g., extra-curricular activities) at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

Personal communication devices include computers, tablets, electronic readers, mobile telephones and similar devices of any type. Students may not use PCDs on school property or at a school-sponsored activity to access and/or view internet web sites that are otherwise blocked to students at school, or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

Also, during after school activities, PCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person may have their PCD confiscated and held until the end of the school day or a parent/guardian picks it up, and may be directed to delete the audio and/or picture/video file. If the violation involves potentially illegal activity the confiscated-PCD may be turned over to law enforcement.

PCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, classrooms, gymnasiums, locker rooms, shower facilities, restrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The Superintendent and building principals are authorized to determine other specific locations and situations where use of a PCD is prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed,

embarrassed or intimidated. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents/Guardians are advised that the best way to get in touch with their child during the school day is by calling the school office.

Students may use school phones to contact parents/guardians during the school day.
