NOTE:

This Student/Parent Handbook is based in significant part on policies adopted by the Board of Education and Administrative Guidelines developed by the Superintendent. Those Board Policies (Brd. Pol.) and Administrative Guidelines are incorporated by reference into the provisions of this Handbook. The Policies and Administrative Guidelines are periodically updated in response to changes in the law and other circumstances. Therefore, there may have been changes to the documents reviewed in this Handbook since it was printed in June, 2018.

This Handbook does not equate to an irrevocable contractual commitment to the student, but only reflects the current status of the Board's policies and the School's rules as of June, 2018. If any of the policies or Administrative Guidelines referenced herein are revised, the language in the most current policy or Administrative Guideline prevails. Copies of current Board policies and Administrative Guidelines are available from the building principal and on the District's web site.

INTRODUCTION

Handbook Purpose

The Trotwood-Madison City Schools (TMCS) 2019-20 Student-Parent Handbook was written in accordance with the policies of the Trotwood-Madison City Schools Board of Public Education and the regulations of the Ohio Department of Education.

The Student-Parent Handbook includes the rights and responsibilities of the school community, a range of disciplinary responses, and policies of TMCS. All members of the school community, including students, parents and guardians, principals, school staff, and the district office have rights and responsibilities that support a strong school community. Disciplinary responses focus on promoting positive responses, intervention strategies and the use of suspensions only as a disciplinary measure of last resort.

Handbook Principles

The 2019-20 Student-Parent Handbook is based on the five principles listed in the shaded box. These principles provide an important foundation to guide behavior, both individually and in interpersonal relationships. If students abide by these principles, the learning environment in the school will be strengthened.

The Student-Parent Handbook applies to students at all times while they are on Madison Park property during school hours, immediately before and after school, while traveling in TMCS-sponsored transportation, and at any school-sponsored event, including field trips. Students may be subject to disciplinary action by the school if their actions off-campus create an unsafe or disruptive school environment, interfere with educational purpose or constitute a threat to the health, safety or welfare of a student or students and/or school personnel.

If it is determined students have engaged in cyberbullying during non-school hours and the behavior seriously affects the climate and safety of other students in the school, Madison Park may implement intervention or disciplinary responses included in its Student-Parent Handbook.

TMHS recognizes additional steps must be taken when students with disabilities are disciplined. The Student-Parent Handbook requires principals and school staff to follow Board policies, the administrative regulations of the Superintendent of Schools, and state and federal laws concerning the discipline of students with disabilities, including procedures for determining manifestation (that is, whether the behavior is linked to a student's disability), conducting Functional Behavioral Assessments and developing Behavior Intervention Plans. TMHS is also committed to using this code fairly and without discrimination based on a student's Individualized Education Program (IEP), 504 Plan, race, ethnicity, national origin, gender, gender identity, sexual orientation or religion.

School Climate and Culture

TMCS defines school climate as the elements in a school associated with relationships, teaching and learning, physical environment and safety. Positive relationships are critical to creating a positive school climate. School leaders set the tone and expectations for the entire school community, paving the way for all members of that community to take simple, yet meaningful, steps to improve school climate.

Schools with a positive climate and culture have:

- ◆ Positive relationships with all stakeholders, parents and guardians, students, teachers and school staff.
- ◆ Training and resources to resolve conflicts peacefully and respectfully, with suspensions only as a disciplinary measure of last resort.
- ◆ Supports for students who are experiencing emotional crisis, trauma or serious challenges in their homes and communities.
- ◆ Engaging academic and extracurricular activities for students that meet behavioral and academic needs.
- ◆ Effective communication among schools, parents and communities.
- ◆ Clean and well maintained environments that clearly demonstrate school pride and love of learning.
- ◆ A learning environment where students and staff feel physically and emotionally safe.

Conflict Resolution

Define the problem	<p>Gather the facts – what you know and what you need to find out.</p> <p>Check your facts and sources for accuracy.</p> <p>Write a clear, objective description of the problem.</p>
Determine who is most directly involved	<p>Initially include only those individuals who are at the point of concern and whose participation is necessary to solve the problem. For example, if your child is having a problem with a particular teacher, the problem at this point belongs only to you, your child and that teacher.</p>
Meet with those most directly involved	<p>Calmly share, listen to, and acknowledge all points of view.</p>
Restate the problem together	<p>Start by listing points of agreement. Move to the question that you need to address together.</p>
Identify solutions and their consequences	<p>Offer and consider all options. Be flexible.</p> <p>Discuss the potential outcome of each solution.</p> <p>Eliminate solutions unacceptable to either party.</p> <p>Choose the solution satisfactory to both parties.</p>
Select a plan of action	<p>Determine what needs to be done, by whom and in what time frame.</p> <p>Specify a means of assessing the outcome.</p>
<p>Do both parties agree?</p> <p>If YES, follow the plan. The problem is resolved.</p> <p>If NO, consider directing concerns to the next level of authority.</p>	
Directing concerns to the next level of authority	<p>Involvement of the next level of authority may be necessary due to the complex nature of the problem; the need for additional resources; or due to disagreement over the most appropriate course of action.</p> <p>This request for involvement of the next level of authority may be initiated by a phone call, a scheduled visit, or a letter to the person at the next level.</p>
Summarize previous results	<p>Both parties should provide the person at the next level with a review of the outcome of the first meeting; the reasons for the contact with the next level of authority; and their recommendations.</p>
Receive feedback	<p><u>Within 10 working days</u>, all parties should receive a response that includes a strategy for dealing with the concern and a rationale to support all recommendations.</p>
<p>If the parties do not agree, the Superintendent may address the problem solving process.</p>

SECTION I - STUDENT CONDUCT

This policy applies to all conduct which occurs at schools, buildings, grounds and vehicles owned or controlled by the Board and at all interscholastic competitions, extra-curricular events, going to and from school, and all other programs and activities sponsored by Trotwood-Madison City Schools or in which Trotwood-Madison is a participant. Misconduct by a student that occurs off school district property but is connected to activities or incidents that have occurred on school district property may result in disciplinary action. Misconduct regardless of where/when it occurs that is directed toward a School District official or School employee, or the property of an official or employee, may result in disciplinary action.

The chief goal in discipline is to develop self-discipline in each student so that the student might control his/her own conduct both in and out of school and later as an adult. Ultimately, it is the Principal's responsibility to maintain order. The School is committed to providing prompt, reasonable discipline consistent with the severity of the incident. The consequences for misbehavior are designed to be fair, firm, and consistent for all students in the School. Because it is not possible to list every misbehavior that occurs, those not listed in this section, will be responded to as necessary by staff.

Trotwood-Madison City Schools Introduction and Philosophical Basis

The Trotwood-Madison City School District believes in restorative practices in student discipline. We take a more restorative approach to manage and respond to student behavior rather than make decisions from a zero-tolerance policy. Our vision is to create alternatives to traditional, punitive discipline, which are often exclusionary, and instead, keep our kids in school. The Trotwood-Madison City Schools Student Code of Conduct supports our schools in maintaining safe, nurturing, participatory and productive learning environments. In order to maximize learning time and promote positive behaviors, every school must establish multi-tiered systems of support for students' social, emotional and behavior needs. This includes developing clear expectations, teaching social-emotional competencies, and fostering positive relationships among all members of the school community.

It is the responsibility of both student and parent/guardian to know the rules of the Student Code of Conduct and to support the fair and impartial administration of the rules. With age and maturity, students will be expected to assume greater responsibility for their actions. Students are responsible for accepting the consequences for actions that may violate the Student Code of Conduct.

It is the responsibility of the parent/guardian to ensure that their child behaves appropriately and demonstrate respect for all school staff, especially teachers, at all times. In turn, the district will do its part to assist students with learning from their mistakes in order to maintain a healthy culture and climate conducive to achieving positive learning outcomes. The progressive discipline structure of this Student Code of Conduct provides opportunities to intervene with students who struggle with maintaining desirable behaviors early in the process, and holds students accountable for their actions, should the behavior become chronic and/or more aggressive.

The level of discipline imposed shall be based on the severity of the misbehavior. Administrators reserve the right to upgrade the level of the offense and the severity of discipline depending on the details of the incident. Each level represents progressively more serious misbehavior and consequences.

Level 1 Offenses – (Conduct that impedes the orderly operation of classrooms, schools and/or district vehicles) cover students who commit, attempt to commit, aid or abet the commission of, conspire to commit, or participate in any manner, even though unaccomplished, any of the offenses designated in this section. A student charged with behavior that is classified as a Level 1 offense should receive corrective strategies in the classroom and/or building and not be excluded from school. However, repeated and /or serious violations may rise to Level 2 or Level 3 disciplinary action.

A student charged with behavior that is classified as Level 3 may be removed from the school immediately and may be expelled for up to eighty (80) days, or under limited circumstances, up to one (1) year.

Suspension of Bus Riding Privileges

The Administrator in charge will notify the student of the reason.

The student will be given an opportunity to address the basis for the proposed suspension at an informal hearing.

After that informal hearing, the Principal, Unit/Assistant Principal, or other Administrator will decide whether or not to suspend his/her bus riding/ transportation privileges for all or part of the school year.

Parents will be notified, in writing within one day, of the reason for and the length of the suspension.

Bus suspensions are not appealable.

Videotapes on School Buses

The Board of Education has installed video cameras on school buses to monitor student behavior. If a student misbehaves on a bus and his/her actions are recorded on videotape, the tape will be submitted to the Principal or designee and may be used as evidence of misbehavior.

Discipline of Students with Disabilities

Students with disabilities will be entitled to the rights and procedures afforded by the Individuals with Disabilities Education Improvement Act (I.D.E.I.A.), the Americans with Disabilities Act (A.D.A.), and/or Section 504 of the Rehabilitation Act of 1973.

Removal from School

(Brd. Pol. #5605, 5610, 5611)

Formal discipline involves removal of the student from school. It includes emergency removal for one (1) school day, suspension for up to ten (10) school days, expulsion for up to one hundred eighty (180) school days or the number of days remaining in a semester (whichever is greater), and permanent exclusion. Any student who is expelled from school for more than twenty (20) days or if the expulsion will extend into the following semester or school year, will be provided with information about services or programs offered by public and private agencies that work toward improving those aspects of the student's attitude and behavior that contributed to the incident that gave rise to the student's expulsion.

Suspension Procedures

The student will be given a written letter or intent to suspend during a conference with the School Principal indicating the basis for the proposed suspension.

The student will be given an opportunity to explain his/her view of the underlying facts.

After the information hearing, the School Principal will determine whether or not to suspend the student.

If the decision is made to suspend the student, parents will be notified within one (1) day of the suspension.

This notice will include the reasons for suspension, the right to a hearing, and the Board's designee for the appeal.

Students who are suspended are not permitted to participate in any extracurricular activities during the dates of the suspension.

If the suspension is appealed to the Board's designee, the appeal shall be conducted in a private hearing. A verbatim transcript will be made.

If the decision, after the appeal, is to uphold the suspension, the next step in the appeal process is the Court of Common Pleas.

During the appeal process, the student shall not be allowed to remain in School.

Expulsion Procedures

An expulsion is a removal for more than ten (10) consecutive days.

The parent will receive a formal letter of notification of the expulsion.

This notice will include:

- the reasons for the intended expulsion;

- notification of the opportunity to appear in person before the Superintendent or Hearing Officer to challenge the reasons for the expulsion and/or explain the student's action; and

- notification of the time and place to appear.

A formal hearing will be scheduled no earlier than three (3) and no later than five (5) school days after the sending of the notice.

The student may be represented by his/her parents, legal counsel, and/or person of his/her choice at the hearing.

Parents may request an extension of time for the formal hearing. During this time the student will not be allowed to return to School.

Following the hearing, the Hearing Officer will make a recommendation to the Superintendent; only the Superintendent may expel a student from school.

If a student is expelled, the student's parents will be provided with written notice within two (2) school days of the imposed expulsion.

This notice will include:

- the reasons for the expulsion;

- the right of the student, the student's parent(s)/guardian(s), or custodian(s) to appeal the expulsion to the Board or its designee;

- the right to be represented in all appeal proceedings;

- the right to be granted a hearing before the Board or its designee; and

- the right to request that the hearing be held in executive session.

No later than fourteen (14) days after the Superintendent notifies the parents of the expulsion, the expulsion may be appealed, in writing to the Board of Education.

A hearing on the requested appeal will be formal, with an opportunity for sworn testimony and to be held in executive session, unless parent(s)/ guardian(s) request otherwise.

During the appeal process, the student shall not be allowed to return to School.

If the expulsion is upheld on appeal, a student's parents may pursue further appeal to the Court of Common Pleas.

Expulsion for certain violations, including use or possession of alcohol or drugs, may result in revocation of a student's driver's license.

Expulsion proceedings will continue even if the student withdraws from school prior to the hearing or the decision to impose the expulsion.

The expulsion will be imposed for the same duration that it would have been had the student remained enrolled.

Permanent Exclusion Procedures

Permanent exclusion removes a student from schools in the State of Ohio on a permanent basis. This process is formal and may follow an expulsion with proper notification to the parents.

The offenses for which permanent exclusion are authorized are:

The School recognizes its responsibility to cooperate with law enforcement and public child welfare agencies.

Investigation by law enforcement and public child welfare agencies can take place at School in emergency situations or if the violation being investigated occurred on School property.

Before students are questioned as witnesses or suspects in an alleged criminal violation, the building administrator will attempt to contact a parent prior to questioning and shall remain in the room during questioning.

Before students are questioned as the subject of alleged child abuse or neglect, the building administrator will attempt to contact a parent prior to questioning, and the administrator (or a designated guidance counselor) will remain in the room during questioning.

If the agency investigating the alleged child abuse or neglect suspects the parent is the perpetrator, neither parent will be contacted prior to questioning, but the building administrator (or a designated guidance counselor) will remain in the room during questioning.

- A student whose physical condition may prohibit attendance at school may apply to the Attendance/Resource Teacher for Home Instruction provided he/she has a physician's statement documenting his/her condition.

Absences—Parents are requested to call the attendance office each day a student will be absent from school. Phone calls will be made to parents who have not called school before 9:00 a.m. Parents who have not communicated by phone must provide a written note when the student returns to school as to the reason for the absence. If no note is received within three days, the absence will remain unexcused.

Students missing seven (7) days or who have ten (10) tardies will receive a letter from the coordinating principal requiring documentation from either a physician, dentist, nurse practitioner, or a physician assistant for future absences to be excused. The medical documentation must be renewed each school year.

DEFINITION OF TRUANCY AND EXCESSIVE ABSENCES – Per House Bill 410

BULLYING AND OTHER AGGRESSIVE BEHAVIOR

(Brd. Pol #5517)

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse, and violence within a dating relationship. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, on a school bus, or while in route to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means:

- A. any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s); or
- B. violence within a dating relationship.

“Electronic act” means an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyberbullying, intimidating, menacing, coercion, name calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means cyberbullying through electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

BULLYING AND OTHER AGGRESSIVE BEHAVIOR (cont.)

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the building principal or assistant principal. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The building principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying/ cyberbullying by an electronic act or otherwise, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include suspension or up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Retaliation may result in disciplinary action as indicated above.

Deliberately making false reports about harassment, intimidation, bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5515.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

BULLYING AND OTHER AGGRESSIVE BEHAVIOR (cont.)

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the building principal or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the building principal or appropriate administrator shall notify in writing the custodial parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the building principal for review, investigation, and action.

Students, parents/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher or school administrator. Such complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the building principal for review, investigation, and appropriate action.

Individuals who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

BULLYING AND OTHER AGGRESSIVE BEHAVIOR (cont.)

Reporting Requirement

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be annually circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. At least once each school year a written statement describing the policy and consequences for violations of the policy shall be sent to each student's custodial parent or guardian. The statement may be sent with regular student report cards or may be delivered electronically.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students in the District and to their custodial parents or guardians.

State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedures.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying and violence within a dating relationship. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines and aggressive behavior and bullying in general, will be age and content appropriate.

Annually, the District shall provide all students enrolled in the District with age-appropriate instruction regarding the Board's policy, including a written or verbal discussion of the consequences for violations of the policy to the extent that State or Federal funds are appropriated for this purpose.

BULLYING AND OTHER AGGRESSIVE BEHAVIOR (cont.)

Education and Training (cont.)

Students in grades seven (7) through twelve (12) shall receive age-appropriate instruction in dating violence prevention education, including instruction in recognizing dating violence warning signs and characteristics of healthy relationships. Parents, who submit a written request to the building principal to examine the dating violence prevention instruction materials used in the school, will be afforded an opportunity to review the materials within a reasonable period of time.

The District shall provide training, workshops, and/or courses on this policy for school employees and volunteers who have direct contact with students to the extent that State or Federal funds are appropriated for these purposes. Time spent by school staff in these training programs shall apply toward mandated continuing education requirements.

In accordance with Board 8462, the Superintendent shall include a review of this policy on bullying and other forms of harassment in the required training in the prevention of child abuse, violence, and substance abuse and the promotion of positive youth development.

The Superintendent shall develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

Computer Use by Students

(Brd. Pol. #7540 and 7540.03)

Student Network and Internet Acceptable Use and Safety

Advances in telecommunications and other related technologies have fundamentally altered the ways in which information is accessed, communicated, and transferred in society. Such changes are driving the need for educators to adapt their means and methods of instruction, and the way they approach student learning, to harness and utilize the vast, diverse, and unique resources available on the Internet. The Board of Education is pleased to provide Internet services to its students. The District's Internet system has a limited educational purpose. The District's Internet system has not been established as a public access service or a public forum. The Board has the right to place restrictions on its use to assure that use of the District's Internet system is in accord with its limited educational purpose. Student use of the District's computers, network and Internet services ("Network") will be governed by this policy and the related administrative guidelines, and the Student Code of Conduct. The due process rights of all users will be respected in the event there is a suspicion of inappropriate use of the Network. Users have no right or expectation to privacy when using the Network (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity while on the Network).

The Board encourages students to utilize the Internet in order to promote educational excellence in our schools by providing them with the opportunity to develop the resource sharing, innovation, and communication skills and tools that are essential to both life and work. The instructional use of the Internet will be guided by the Board's policy on instructional materials.

The Internet is a global information and communication network that provides an incredible opportunity to bring previously unimaginable education and information resources to our students. The Internet connects computers and users in the District with computers and users worldwide. Through the Internet, students and staff can access up-to-date, highly relevant information that will enhance their learning and the education process. Further, the Internet provides students and staff with the opportunity to communicate with other people from throughout the world. Access to such an incredible quantity of information and resources brings with it, however, certain unique challenges and responsibilities.

First, and foremost, the Board may not be able to technologically limit access, through the Board's Internet connection, to only those services and resources that have been authorized for the purpose of instruction, study and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the Internet, because it serves as a gateway to any publicly available file server in the world, will open classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages.

Pursuant to Federal law, the Board has implemented technology protection measures, which protect against (e.g. filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the Superintendent, the technology protection measures may be configured to protect against access to other material considered inappropriate for students to access. The Board also utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the Network, if such disabling will cease to protect against access to materials that are prohibited under the Children's Internet Protection Act.

Computer Use by Students (cont.)

Parents are advised that a determined user may be able to gain access to services and/or resources on the Internet that the Board has not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents assume risks by consenting to allow their child to participate in the use of the Internet. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The Board supports and respects each family's right to decide whether to apply for independent student access to the Internet.

Pursuant to Federal law, students shall receive education about the following:

- Safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications the dangers inherent with the online disclosure of personally identifiable information
- The consequences of unauthorized access (e.g., "hacking") cyberbullying and other unlawful or inappropriate activities by students online, and unauthorized disclosure, use, and dissemination of personal information regarding minors

Staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above. Furthermore, staff members will monitor the online activities of students while at school. Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

The Superintendent shall prepare guidelines that address students' safety and security while using e-mail, chat rooms, instant messaging and other forms of direct electronic communications, and prohibit disclosure of personal identification information of minors and unauthorized access (e.g., "hacking") and other unlawful activities by minors online.

Building principals are responsible for providing training so that Internet users under their supervision are knowledgeable about this policy and its accompanying guidelines. The Board expects that staff members will provide guidance and instruction to students in the appropriate use of the Internet. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. All Internet users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Students and staff members are responsible for good behavior on the Board's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. The Board does not sanction any use of the Internet that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Computer Use by Students (cont.)

Students shall not access social media for personal use from the District's network, but shall be permitted to access social media for educational use in accordance with their teacher's approved plan for such use.

Users who disregard this policy and its accompanying guidelines may have their use privileges suspended or revoked, and disciplinary action taken against them. Users granted access to the Internet through the Board's computers assume personal responsibility and liability, both civil and criminal, for uses of the Internet not authorized by this Board policy and its accompanying guidelines.

The Board designates the Superintendent and Technology Coordinator as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to students' use of the Network.

Personal Communication Devices (PCDs)

(Brd. Pol. #5136)

Students may use personal communication devices (PCDs) before and after school, during after school activities (e.g., extra-curricular activities) at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and they must be powered completely off (i.e., not just placed into vibrate or silent mode) and stored out of sight.

For purposes of this policy, "personal communication device" includes computers, tablets (e.g., iPads and similar devices), electronic readers ("e-readers"; e.g., Kindles and similar devices), cell phones (e.g., mobile/cellular telephones, smartphones (e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.)), and/or other web-enabled devices of any type. Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school, or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

Also, during after school activities, PCDs shall be powered completely off (not just placed into vibrate or silent mode) and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person may have their PCD confiscated and held until the end of the school day or a parent/guardian picks it up, and may be directed to delete the audio and/or picture/video file. If the violation involves potentially illegal activity the confiscated-PCD may be turned-over to law enforcement.

PCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, classrooms, gymnasiums, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The Superintendent and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving,

Personal Communication Devices (PCDs) (cont.)

sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extra-curricular activities is a privilege that may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent/guardian or turned-over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search will be conducted in accordance with Policy 5771 – Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Parents/Guardians are advised that the best way to get in touch with their child during the school day is by calling the school office.

Students may use school phones to contact parents/guardians during the school day.

- Any facts, remarks, or actions that could jeopardize the safety of our children, staff, or school should be reported.
- Examples might include:
 - Abuse (Physical or Mental)
 - Alcohol/Drugs/Tobacco
 - Bullying/Harassment/Intimidation
 - Discrimination
 - Hacking/Cyber Crime
 - Health Concerns

Go to our district website (<http://www.trotwood.k12.oh.us>) and click on the button:

- After you finish your call, the district will receive a confidential report from PublicSchoolWORKS. Your issue will then be investigated by our district and appropriate action will be taken.
- To ensure your information is sufficient, please give names, times, and event details which you feel we should know. Please try to provide as much information about the situation as possible.

- Effective July 1st 2014, every breakfast counted must include a fruit.

Lunch

Each student is allowed one lunch.

A lunch option called Offer vs. Serve is available in all buildings that allow students to select items they want rather than take all of what is offered that day.

Those bringing a lunch from home may buy milk, juice and extra items available for purchase at the register.

All students are expected to remain at school during the lunch period.

Students may not bring pop or fast food for lunch.

Menus are updated monthly and are posted to the district website as close to the beginning of each month as possible. Items on that menu are subject to change due to shortages and other unforeseen circumstances.

(Brd. Pol. #5409, 5410)

Final decisions on student promotion, placement, or retention rest with the building principal. Promotion and retention for Grade 3 shall be in compliance with the terms of Ohio's Third Grade Reading Guarantee.

Promotion

What is promotion?

- Promotion is the movement of student(s) forward in a continuous pattern of achievement and growth that is in harmony with his/her own development.

What are the requirements for my student to be promoted to the next grade?

- Complete the course and State-mandated requirements at the currently assigned grade.
- Achieve the instructional objectives set for the present grade.
- Demonstrate sufficient proficiency to permit movement ahead in the educational program of the next grade.
- Demonstrate the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade.

Retention

Retention is based on the recommendation of the Student Intervention Team with the concurrence of the Superintendent.

What are the guidelines for retaining a student?

- Parents must be informed in advance of the possibility of the student's retention at a grade level.
- The Principal must assure that efforts are made to remediate the student's difficulties before he/she is retained.
- The Principal must provide parents the opportunity to request the promotion, placement, or retention of their child.
- The District must provide parents the opportunity to request an appeal. Contact the Principal for further notice.

Academic Acceleration:

What is academic acceleration?

- Academic acceleration occurs when a student is not only doing the caliber of work necessary to be promoted to the next grade or enrolled in the next course in the academic sequence, but also demonstrates the ability to do the caliber of work required of students in that next grade level/ subject/course.
- Academic acceleration may involve whole-grade acceleration or individual subject acceleration.

What are the guidelines for academic acceleration?

- The Principal, a staff member, or the parent/guardian who has knowledge of the student's abilities may refer the student.
- Students may refer themselves or a peer through a staff member who has knowledge of the referred student's abilities.
- An Acceleration Evaluation Committee will determine whether the student will be permitted to skip a grade level, take a subject at a higher grade level, or skip a course in the usual and customary academic sequence.
- The Principal will schedule the evaluation of the student so that it occurs in a prompt manner. The process is one approved by the Ohio Department of Education (ODE).
- Before a student is evaluated, the Principal will obtain written permission from the student's parent/guardian.
- Evaluations will ordinarily be completed and a written report issued within forty-five (45) calendar days, if requested during the school year. If the request is at the end of the school year, the completion will be within forty-five (45) calendar days of the start of the next school year.

- If the student is recommended for whole-grade or individual subject acceleration, a plan will be written.
- The parent/guardian shall be provided with a copy of the plan.
- At any time during the transition period, the parent/guardian may request in writing that the student be withdrawn from accelerated placement or that other accelerative options be considered.
- A decision will be provided within a 30 day period.
- At the end of the transition period, the accelerated placement shall become permanent.
- The student's record shall be modified accordingly, and the acceleration implementation plan shall become part of the student's permanent record.

SECTION IV-

STUDENT

ACTIVITIES

School-Sponsored Clubs and Activities

(Brd. Pol. #2430)

What are the requirements for participation in school sponsored clubs/activities?

- Extra-curricular activities do not reflect the District curriculum.
- All students are permitted to participate in the activities of their choosing as long as they meet the eligibility requirements.
- Participation in these activities is a privilege and not a right.

Students may be prohibited from all or part of their participation by authorized school personnel without further notice, hearing, and/or appeal rights in accordance with Board Policy.

SECTION V- ATTENDANCE

Attendance

(Brd. Pol. #5200)

What are the attendance requirements?

- Ohio Revised Code (ORC) indicates that it is the responsibility of the parents to assure the regular daily school attendance of their student(s) unless absence is the result of one of the following:
 - Personal illness (a written physician's statement verifying the illness may be required).
 - Illness in the family necessitating the presence of the student.
 - Necessary work at home due to absence or incapacity of parent(s)/ guardian(s).
 - Death in the family.
 - Quarantine of the family home.
 - Observation or celebration of a bona fide religious holiday.
 - Out-of-state travel (up to a maximum of four (4) days per school year) to participate in a District approved enrichment or extracurricular activity. Any classroom assignments missed due to this absence must be completed by the student.
 - Such good cause as may be acceptable to the Superintendent.
 - Unexcused absence from school (truancy) is not acceptable.

A parent note does not automatically excuse an absence or tardy from a truancy referral.

What happens when absences become excessive?

A student will be considered habitually truant if:

- The student is absent without a legitimate excuse for 72 or more hours in a school year.
- A student will be considered chronically truant if the student is absent without a legitimate excuse for:
 - 30 or more consecutive hours
 - 42 or more hours in one (1) school month
 - 72 or more hours in one (1) school year
 - If a student is deemed a habitual truant, this will require the student to be assigned to an absence intervention team at the direction of the Superintendent or designee. As required by law, the student and parent/guardian will be required to participate in the intervention plan.

Ohio Law requires a complaint to be filed with the Montgomery County Juvenile Courts if the student fails to make satisfactory progress during the intervention plan.

What should I do if my student has a legitimate absence?

- Call the school before 8:00 AM to report the child's absence.
- When a student returns to school after absence, he/she must bring a note from his/her parent or guardian stating the reason for each absence. The note must include a working number to contact the parent.
- Only three (3) absences will excused per quarter; unless under a physician's care for an extended period of time (see next bullet).
- In the event of prolonged absence (1+weeks), contact your Principal/Unit Principal's secretary for work assignments and provide a doctor's statement upon return.
- If a student is absent from school for any reason, he/she is not eligible for a perfect attendance award.
- A student will be considered absent ½ day if they arrive after first lunch begins.
- Accordingly, a student must be present during the full day to be eligible to attend extra-curricular school functions scheduled for that day.

Tardiness

(Brd. Pol. #5230)

What happens if my student is late to school?

- Being on time for school is very important.
- Students are expected to be in their classrooms prior to the starting time. Students will be considered tardy if they arrive after that time.
- Excused tardy is one where the student has a specific doctor or dental note for that date and time or something from the court indicating that the student must be present for that specific date and time.
- Unexcused tardy is one that does not fall in the excused area.
- Violations for unexcused tardy will follow the discipline code and will be progressive. Whenever a student's tardiness becomes excessive or the reasons for a student's tardiness become suspect, the school attendance officer will be assigned to initiate an investigation and he/she may call Children's Services (CSB).

No student will be permitted to return to a classroom to pick up forgotten items after their dismissal time unless the student is accompanied by school staff personnel.

Dismissal

(Brd. Pol. #5230)

What is the procedure if I need to pick my student up from school early?

No student may leave school prior to dismissal time without a parent or guardian either submitting a signed written request or coming to the School office personally to request the release.

No student will be released to a person other than a custodial parent/ guardian without written authorization signed by the custodial parent/ guardian.

A driver's license or other picture identification will be required.

We discourage early dismissals for reasons other than doctor's appointments or emergency

What will happen if I do not pick my student up at dismissal time?

- Our utmost concern is for the safety of our students.
- If a student is dropped off at school prior to the first bell, not picked up after any school event (*within ½ hour*), or the parent is not present at the bus stop when the bus arrives, any one of the following may occur:
 - A charge of \$25.00 per hour or any part of the hour will be imposed;
 - Children's Services Board and/or Trotwood Police will be contacted;
 - The child will be transported to the Trotwood Police Department.
- Any change in routine dismissal procedure requires written permission from the student's parent or guardian. Please notify the office 1 hour before dismissal. (This includes students walking, riding a city bus, or a school bus.)
- Changes will be allowed for emergencies only and must be approved by the Building Principal.

THERE WILL BE NO EXCEPTIONS TO THIS POLICY!

Vacations

What should I do if my vacation occurs during the school year?

- It is recommended that parents not take their students out of school for vacations.
- Removal could be subject to truancy regulations.
- Students going on trips or vacations should bring a note from their parent/guardian one week before the absence. These absences will be noted, but not excused.
- Make-up work must be arranged prior to the absence and must be turned in the first day the student returns to school.
